### DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

#### ***Claim Objections***

2. Claim 1 is objected to because of the following informalities:

Claim 1, lines 4-5, should be changed from "and generating a signal representing at least one parameter of the plank" to -- and generating a signal representing the at least one parameter of the plank--.

Claim 1, lines 12-13, should be changed from "comprising two first guide and drive elements arranged opposite relative to the path and..." to -- comprising two first guide and drive elements arranged on opposite sides of the path and...--

Claim 1, lines 17-18, should be changed from "comprising two second guide and drive elements arranged opposite relative to the path and..." to -- comprising two second guide and drive elements arranged on opposite sides of the path and...--

Claim 1, lines 34-36, "wherein the guide and drive elements from the first mechanism are displaceable independently and at an angle with respect to the guide and drive elements from the second mechanism," is a redundant clause, as lines, 21-23, already disclosed "and for displacing the guide and drive elements of from the first mechanism independently and at an angle with respect to the guide and drive elements from the second mechanism".

Appropriate correction is required.

3. Claim 15 is to be cancelled, as non-elected per the response to the restriction entered on 4/20/2007.

***Conclusion***

4. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
